What did you like about the TFB coaching and training program?

I was amazed at the completeness of the TFB coaching and training program. Anyone not knowing a thing about real estate or tax liens and deeds could easily grasp the concepts. Dustin took us by the hand and led us through the entire program leaving no stone unturned and giving us the benefit of personal contact with him. I really feel ready to enter the market and know I will do very well because of the totally complete training from Dustin. It is the most in depth course I have ever taken, period!
My name is Donna McPhate - Monticello,FL, Age 65

What I liked about the training was how thorough it was. I have taken many courses over the years and have never seen one like this. I liked that it was in short pieces that can be learned easily. Each training added to the one previously learned. I got behind in implementing some of the things but I would listen or watch the new material, then go back and start using the previous weeks. I am up to week 9 now and everything is done to that point. This is life changing and I will be using it a lot.
My name is Dan Gillespie Kitchener, Ontario, Age 69

There were so many great things about the TFB class, but the thing that stands out the most is the way you presented the material. You spoke in a clear straight forward manner on a level easy to understand . It felt as if you and I were sitting across from each other having a conversation in the same way I would do with a old and trusted friend.

- c. Processes stressed simplicity
- d. The big picture concepts were adequately conveyed even if some of the details were light
- e. Dustin was always very patient and encouraging in the written and spoken word
- f. Dustin's personality and approach is what really drove the course
- g. The Health & Vitality and Nitro clips were a favorable diversion to the material

Dustin lays out the program in such a straightforward and realistic way. I had doubts about how effective and successful the superstars would be as we were putting a rather large burden on them. I was able to appreciate Dustin's training . His techniques cover a system which is nearly seamless. I never felt overwhelmed and that tasks could not be met on time. The design and nature of the course included many "small" victories or accomplishments along the path to success.
My name is William Sander, Tallahassee, FL

I loved the tfb training and coaching program mainly because of how you put all the details together to run a tax lien and deed business efficiently ,with education,resources etc
My name is Marnie Naidoo - Plano. Texas

It was different, direct and showed how to set up and operate a business with less stress than present systems, and be more efficient while cutting cost.
My name is Halsey Cruickshank - Brooklyn, NY.

The magic of the beginning when you feel like you are taking steps toward goals and your imagination takes that to infinity.
My name is Carl, from McAllen,TX, Age 26

I loved the fact that Dustin was working with us personally. It almost felt like it was a one, on one. I loved the weekly webinars. I loved the way all the lessons walked me through exactly what I needed to do and know. I being ADHD. most of the time I need to go through lesson over and over. A lot of times things just don't make sense to me. Dustin's weekly videos couldn't of been more helpful all the necessary information was right there.
My name is Alicia, from Danville, CA

Your enthusiasm for your program and the step by step instructions you presented to complete the work you suggested. The program was intense and time consuming.
My name is Mark and Diane Orchard, from Oxford, MI

What I liked about the TFB coaching and training course was that it was very cleverly thought out and balanced.It initially focused on the mind set requisite for success, proceeded to construct the shell of a business, and throughout presented component addressing health and motivation.

Well I finally hired my superstar two weeks ago. Things are working
Ok. Not sure what to do with the info she is gathering for me on the
counties if i cant attend them personally. I will continue to review the
trainiin and imp-limit your training. I do like the fact that this is a all
inclusive training giving me the tools to take the business to the next
level with your proven track record. Nothing better then having a

For those interested in entering the world of having a business of their own it provides it all and more in a very carrying way ... one senses that Dustin truly wants our success.

My name is John Irving – Barrie,Ontario, Age 70

I wouldn't. - I don,t want any more competition. Actually I have been telling people about the program since we started. Most are surprised at what I shared with them but I didn't want to give away all my tips.

My name is Edward Miller - Santa Cruz,CA, Age 53

I would absolutely recommend the TFB Training Program to anyone who has the least interest in making money in real estate without the usual headaches. It removes all the obstacles and gives you the opportunity to build your own business the way you want it...it doesn't have to follow a specific format because you can land on any of the various methods taught to carve out your own niche and make it as big or as small as suits you. I think that is the true beauty of this program, you don't have to take it to the highest level to do well; you can find the level that fits your desires and do very well too.

My name is Marnie Naidoo - Plano, Texas

It will give them a different prospective on running a business with less stress and be more effective.

My name is Halsey Cruickshank - Brooklyn, NY.

3- Why did you like Dustin's TFB training program better then other real estate training programs you have taken?

I liked how it was made in weekly bites. Most of the other courses I have taken were tape and cd programs. The information sounds good but they don't tell you exactly how to implement it. With your course, a lot of the time I would play the video on my computer and follow along and implement it on my laptop. The idea of a Superstar and using Basecamp is a so far advanced from any thing I a have seen and probably many others in the training would agree.

Dustin's TFB Training Program is the most complete real estate training program on the market. Not only does he cover each and every little detail you might encounter he does so with the personal touch so you feel a part of the program. Most important of all, your success is not dependent upon you being a slick talking person with all the answers like those in the other programs. You can make this business suit your personality and do well at it. Dustin's desire to share his knowledge and information is second to none; you come to realize he really cares about you being successful with what he is teaching.

4- Why were you skeptical before registering for the TFB coaching program? and at what point did you realize you made a good investment?

I was skeptical. I thought I had learned every thing from your book and the course I had purchased. When you started the training on the Superstar I thought this is really different from anything I had seen before. Then each week it got better and better. Thanks for the training. It is worth much more than what we paid for it. A lot of the programs are going to mentoring with a monthly fee. This is so much better.

My name is Dan Gillespie Kitchener, Ontario, Age 69

In 63 years, a person learns to be skeptical, I've seen a lot of real estate (B/S) programs come and go. Your money back offer was still open so I was interested to see what you got. It was after reviewing lesson #3 that I decided that you were on the level.

My name is Joseph (Joe) Bonifacic from Ft. Lauderdale, FI, Age 63

I was not skeptical and knew this program was genuine from the beginning based from the info given on YouTube.

My name is Roger Powell, Jacksonville,FL, Age 45

I was skeptical before registering for the TFB coaching program because of the cost honestly. I don't have a lot of extra cash right now and it was a stretch for me to step out and spend that much. I realized I made a good investment when I realized what I was learning was really possible and now I feel I know enough to actually do it. I believe I can be successful with the information I learned and just a few years from now I know I am going to look back and be glad I took the step to join the TFB.

Good investment, eh. I'm a kid of the modern world. I know information is free and easily accessed. But to be guided to do something that i wanted to do...and then be able to ask questions...that's valuable simply because it saved my time. And my time is how i was able to put value on the program. My name is Carl, from McAllen,TX, Age 26

First of all, I was not skeptical at all.I have most of Dustins Videos, so I felt like I knew him already from the videos. I knew it was a great investment from the beginning. That's why I didn't give up trying to borrow money from anyone in my family. Which was a very unusual thing for me to do. It was hard to borrow money for me for the program. I also knew I would not regret it,as I have with other programs. My name is Alicia, from Danville, CA

Skepticism is innate in these programs. When our superstar started to help in a practical way with the research -- that was a turning point for me and Diane. My name is Mark and Diane Orchard, from Oxford, MI

I was not sure if Dustin was just a great sale person. I loved the program since the first week

My name is Ruben Ramos, from Paterson,NJ

I saw several programs offering to teach tax liens and deeds but the spokesmen were too slick and it made me leery. Then I learned of Dustin's program and found him to be personable without the hype; charming without the slickness; and most of all, honest. You felt he really cared about wanting to share his knowledge and experiences so you would not have to re-invent the wheel. His generosity of spirit is what came through and convinced me that his was the course I wanted to take instead of any of the others. All of this came to be true when we received the first Week's lesson; it was a peek at what was ahead and I knew then that I had made a wise decision and have not regretted it for one moment since.

In the end you realize you can do things, some that you never realized were attainable. You just have to learn how and the TFB taught you how.

Each week if you are struggling you hear stories from others struggling or those having success on the live calls. It just helps to let you know I am not alone and can do this. Dustin is a great encouragement throughout the course.

**This program helped me overcome my fears by laying everything out in clear and concise language so I knew I would not be left on my own to stumble through unknown territory. Dustin even provided us with a shopping list of equipment and tools so we could do the business exactly the same way he does. His innovations are second to none and I doubt even the slick salesmen from the other programs know half of what we learned from Dustin. With all this information at our fingertips, how could anyone maintain any fears or experience any frustrations? The path has been cleared for us; we just have to follow it to where we want to go.

My original superstar is completely efficient, we have information exchanges several times per week. I am preparing to hire the second superstar and will add more in the future. 9- How has your life changed for the better now that you have completed the TFB

My life has changed for the better in many ways. I'm now playing Golf (my passion) four times a week, instead of one or two. This has made me much happier. Even though I'm not making as much money now as I will be making in 6 months, now my wife is much happier because we will be able to get our place on the beach (her passion). I also have so much more confidence and power in having my own business, because knowledge is power!

My life has changed for the better in several ways since completing the TFB training. I am more goal oriented. I did meet some of my set goals during the TFB and some I am still working on. I learned how to start and run my own Real Estate Business. It also taught me how to run a business without being there all the time I can be gone and my business still running. It really has changed my life in several ways it was really neat getting to talk to Dustin, learn from him, and ask questions. I have made some new friends from the TFB community and look forward to talking to those involved more and building some life long relationships.
